NH DHHS COVID-19 Update – May 12, 2021

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Wednesday, May 12, 2021, DHHS announced 174 new positive test results for COVID-19. Today's results include 88 people who tested positive by PCR test and 86 who tested positive by antigen test. There are now 1,402 current COVID-19 cases diagnosed in New Hampshire.

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are fifty-one individuals under the age of 18 and the rest are adults with 53% being female and 47% being male. The new cases reside in Rockingham (27), Hillsborough County other than Manchester and Nashua (23), Strafford (17), Cheshire (15), Grafton (15), Merrimack (12), Belknap (10), Coos (7), Carroll (4), and Sullivan (1) counties, and in the cities of Manchester (16) and Nashua (13). The county of residence is being determined for fourteen new cases.

Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis or have recently traveled.

DHHS has also announced four additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Hillsborough County, 60 years of age and older
- 1 male resident of Hillsborough County, 60 years of age and older
- 1 female resident of Merrimack County, 60 years of age and older
- 1 female resident of Strafford County, 60 years of age and older

There are currently 63 individuals hospitalized with COVID-19. In New Hampshire since the start of the pandemic, there have been a total of 97,093 cases of COVID-19 diagnosed.

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (updated May 12, 2021, 9:00 AM)

NH Persons with COVID-19	97,093
Recovered	94,369 (97%)
Deaths Attributed to COVID-19	1,322 (1%)
Total Current COVID-19 Cases	1,402
Current Hospitalizations	63

COVID-19 Vaccine Allocation Update

Age and Sex of COVID-19 Vaccine Recipients

Population Group	Estimated NH Population Size ⁴	Proportion of Population	Received 1 Dose			Received 2 Doses		
			Proportion of Dose 1	Persons	Estimated Vaccine Coverage	Proportion of Dose 2	Persons	Estimated Vaccine Coverage

¹ Hispanic/Latino includes people of any race.

² All other races are non-Hispanic/Latino or Hispanic/Latino ethnicity unknown.

³ Other includes non-Hispanic: American Indian/Alaska Native, Native Hawaiian/Other Pacific Islander, or two or more races.

⁴ Census Bureau Population Estimates 7/1/19 from <https://www.census.gov/data/tables/time-series/demo/popest/2010s-state-detail.html>

Data represent persons vaccinated at NH vaccination sites, excluding federally allocated vaccine doses (n=71,194), through May 9th, 2021 and entered into the New Hampshire Immunization Information System.

Ω Data are temporarily unavailable due to a technical issue.

Vaccine Doses Allocated, Distributed, and Administered by Vaccination Site Group

Vaccination Sites	Doses Available for Site to Order ¹	Doses Distributed ²	Total Doses Administered to Patients ³	1-dose Vaccine ⁴ Doses	2-dose Vaccine ⁵	
					First Doses	Second Doses
Hospitals	183,618	154,007	154,494	721	81,458	72,315
Long-term care pharmacy partnership program*	54,015	51,675	49,052	0	26,575	22,477
State-managed fixed sites	700,274	720,995	697,202	6,051	395,779	295,372

Regional public health network mobile sites	154,918	115,650	108,258	5,701	58,104	44,453
Retail Pharmacy**	298,060	312,698	151,421	10,107	99,131	42,183
Outpatient Healthcare Locations	14,250	7,900	7,919	759	6,259	901
Supersites	38,620	38,384	38,268	22,326	9,639	6,303
Other	28,615	12,131	12,428	325	8,822	3,281
Total	1,472,370	1,413,440	1,219,042	45,990	685,767	487,285

¹ Doses available for site to order are the number of first and second doses that have been made available to the site to order.

² Doses distributed are the number of first and second doses that the site has ordered and received at their location. Orders are based on clinic schedules and average uptake of vaccine by participants.

³ Doses administered may exceed the number of doses distributed due to the ability to get extra doses out of a vial, depending on the type of syringe used.

⁴ Includes the single-dose Janssen Biotech vaccine.

⁵ Includes the 2-dose Pfizer BioNTech and Moderna vaccines.

* The LTCF PPP is a federal program that sends pharmacies into LTCF to vaccinate residents and staff. In order for LTCF to access this program in New Hampshire, NH DHHS was required by the CDC to allocate a fixed number of doses to guarantee that pharmacies would have enough vaccine to complete vaccination administration within a four-week time frame. This program remains on schedule as originally anticipated and will be continually monitored to ensure completeness.

**Retail Pharmacy: Includes doses allocated to the State of NH that were distributed to a Pharmacy in addition to doses allocated directly from the federal government to the federal retail pharmacy partnership program.

¹ Vaccine is distributed equitably across the state to vaccination sites based on a pro-rata share of vaccines available each week and population size of the region being served.

² Doses distributed are the number of doses that the site has ordered and received at their location. Orders are based on clinic schedules and average uptake of vaccine by participants.

³ Doses administered may exceed the number of doses distributed due to the ability to get extra doses out of a vial, depending on the type of syringe used.

⁴ Includes the single-dose Janssen Biotech vaccine.

⁵ Includes the 2-dose Pfizer BioNTech and Moderna vaccines.

Note: Data presented represent doses distributed and administered through May 9th, 2021.

Deaths Pending Investigation Confirmed as COVID-19 Related

The following deaths occurred more than two weeks ago and were recently confirmed as related to COVID-19:

Week of	Sex	County	Age Group
Week of Dec. 28, 2020	Female	Strafford	80+

The most up-to-date laboratory testing data and positivity rates are available on the COVID-19 dashboards at <https://www.covid19.nh.gov/dashboard/overview>.
