¹ Doses administered may exceed the number of doses distributed due to the ability to get extra doses out of a vial, depending on the type of syringe used.

² Includes the single-dose Janssen Biotech vaccine.

³ Includes the 2-dose Pfizer BioNTech and Moderna vaccines.

* The LTCF PPP is a federal program that sends pharmacies into LTCF to vaccinate residents and staff. In order for LTCF to access this program in New Hampshire, NH DHHS was required by the CDC to allocate a fixed number of doses to guarantee that pharmacies would have enough vaccine to complete vaccination administration within a four-week time frame. This program ended on March 31, 2021.

**Retail Pharmacy: Includes doses allocated to the State of NH that were distributed to a Pharmacy in addition to doses allocated directly from the federal government to the federal retail pharmacy partnership program.

Note: Data presented represent doses distributed and administered through June 27th, 2021.
