NH DHHS COVID-19 Update – July 6, 2021

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Tuesday, July 6, 2021, DHHS announced 16 new positive test results for COVID-19 for Monday, July 5. Today's results include 12 people who tested positive by PCR test and 4 who tested positive by antigen test. DHHS also announced 28 cases from Friday, July 2 (17 by PCR test and 11 by antigen test), 26 cases from Saturday, July 3 (16 by PCR test and 11 by antigen test), and 8 cases from Sunday, July 4 (5 by PCR test and 3 by antigen test). There are now 181 current COVID-19 cases diagnosed in New Hampshire.

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are nineteen individuals under the age of 18 and the rest are adults with 56% being female and 44% being male. The new cases reside in Rockingham (18), Belknap (7), Hillsborough County other than Manchester and Nashua (7), Merrimack (6), Cheshire (4), Strafford (4), Grafton (3), Sullivan (3), Carroll (2), and Coos (1) counties, and in the cities of Nashua (11) and Manchester (5). The county of residence is being determined for seven new cases.

Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis or are associated with an outbreak setting.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Strafford County, 60 years of age and older

There are currently 13 individuals hospitalized with COVID-19. In New Hampshire since the start of the pandemic, there have been a total of 99,626 cases of COVID-19 diagnosed.

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (updated July 6, 2021, 9:00 AM)

NH Persons with COVID-19	99,626
Recovered	98,072 (98%)
Deaths Attributed to COVID-19	1,373 (1%)
Total Current COVID-19 Cases	181
Current Hospitalizations	13

COVID-19 Vaccine Allocation Update

Age and Sex of COVID-19 Vaccine Recipients

Population Group	Estimated NH Population Size ⁴	Proportion of Population	Received 1 or More Doses			Fully Vaccinated		
			Proportion of persons with 1+ doses	Persons	Estimated Vaccine Coverage	Proportion of persons fully vaccinated	Persons	Estimated Vaccine Coverage

¹ Hispanic/Latino includes people of any race.

² All other races are non-Hispanic/Latino or Hispanic/Latino ethnicity unknown.

³ Other includes non-Hispanic: American Indian/Alaska Native, Native Hawaiian/Other Pacific Islander, or two or more races.

⁴ Census Bureau Population Estimates 7/1/19 from <https://www.census.gov/data/tables/time-series/demo/popest/2010s-state-detail.html>

Data represent persons vaccinated at NH vaccination sites and through the federal LTC pharmacy partnership program through July 4th, 2021 and entered into the New Hampshire Immunization Information System. Vaccine doses administered through other federal vaccine programs are not included (n=24,324). Ω Data are temporarily unavailable due to a technical issue.

Vaccine Doses Administered by Vaccination Site Group

Vaccination Sites	Total Doses Administered to Patients ¹	1-dose Vaccine ² Doses	2-dose Vaccine ³	
			First Doses	Second Doses
Hospitals	169,875	1,131	85,789	82,955
Long-term care pharmacy partnership program*	48,910	0	26,526	22,384
State-managed fixed sites	820,575	6,986	413,513	400,076

Regional public health network mobile sites	130,964	7,005	65,125	58,834
Retail Pharmacy**	301,960	15,008	165,111	121,841
Outpatient Healthcare Locations	15,997	1,310	10,013	4,674
Supersites	38,197	22,451	9,444	6,302
Other	17,380	772	10,449	6,159
Total	1,543,858	54,663	785,970	703,225

¹ Doses administered may exceed the number of doses distributed due to the ability to get extra doses out of a vial, depending on the type of syringe used.

² Includes the single-dose Janssen Biotech vaccine.

³ Includes the 2-dose Pfizer BioNTech and Moderna vaccines.

* The LTCF PPP is a federal program that sends pharmacies into LTCF to vaccinate residents and staff. In order for LTCF to access this program in New Hampshire, NH DHHS was required by the CDC to allocate a fixed number of doses to guarantee that pharmacies would have enough vaccine to complete vaccination administration within a four-week time frame. This program ended on March 31, 2021.

**Retail Pharmacy: Includes doses allocated to the State of NH that were distributed to a Pharmacy in addition to doses allocated directly from the federal government to the federal retail pharmacy partnership program.

Note: Data presented represent doses distributed and administered through July 4th, 2021.

The most up-to-date laboratory testing data and positivity rates are available on the COVID-19 dashboards at <https://www.covid19.nh.gov/dashboard/overview>.

For more information, please visit the DHHS COVID-19 webpage at <https://www.covid19.nh.gov/>.
