NH DHHS COVID-19 Update – September 30, 2021

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, September 30, 2021, DHHS announced 438 new positive test results for COVID-19 for September 29. Today's results include 273 people who tested positive by PCR test and 165 who tested positive by antigen test. DHHS also announced an additional 13 new cases from Monday, September 27 (13 by PCR and 0 by antigen test) for a new total of 460; and an additional 56 new cases from Tuesday, September 28 (38 by PCR and 18 by antigen test) for a new total of 499. Test results for previous days are still being processed and updated case counts for prior days will be reflected on the [COVID-19 interactive dashboard](#). There are now 3,845 current COVID-19 cases diagnosed in New Hampshire.

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are one hundred and sixty-two individuals under the age of 18 and the rest are adults with 52% being female and 48% being male. The new cases reside in Rockingham (100), Hillsborough County other than Manchester and Nashua (75), Merrimack (53), Strafford (47), Grafton (33), Sullivan (30), Coos (25), Belknap (17), Cheshire (17), and Carroll (14) counties, and in the cities of Manchester (48) and Nashua (21). The county of residence is being determined for twenty-seven new cases.

DHHS has also announced two additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Merrimack County, 60 years of age and older
- 1 female resident of Strafford County, 60 years of age and older

There are currently 144 individuals hospitalized with COVID-19. In New Hampshire, since the start of the pandemic, there have been a total of 120,268 cases of COVID-19 diagnosed.

Current Situation in New Hampshire
