NH DHHS COVID-19 Update November 16, 2021

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Tuesday, November 16, 2021, DHHS announced 774 new positive test results for COVID-19 for Monday, November 15. Today's results include 392 people who tested positive by PCR test and 382 who tested positive by antigen test. DHHS also announced an additional 17 new cases from Thursday, November 11 (6 by PCR and 11 by antigen test, for a new total of 1,070); and an additional 26 new cases from Friday, November 12 (11 by PCR and 15 by antigen test, for a new total of 701). Test results for previous days are still being processed and updated case counts for prior days will be reflected on the COVID-19 interactive dashboard. There are now 6,344 current COVID-19 cases diagnosed in New Hampshire.

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are two hundred and thirteen individuals under the age of 18 and the rest are adults with 54% being female and 46% being male. The new cases reside in Rockingham (178), Hillsborough County other than Manchester and Nashua (119), Merrimack (83), Strafford (71), Belknap (63), Grafton (58), Sullivan (39), Carroll (22), Coos (19), and Cheshire (11) counties, and in the cities of Manchester (55) and Nashua (54). The county of residence is being determined for forty-five new cases.

DHHS has also announced six additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Grafton County, 60 years of age and older
- 1 male resident of Grafton County, fewer than 60 years of age
- 1 female resident of Merrimack County, 60 years of age and older
- 1 male resident of Rockingham County, 60 years of age and older
- 1 male resident of Strafford County, 60 years of age and older
- 1 male resident of Sullivan County, 60 years of age and older

There are currently 294 individuals hospitalized with COVID-19. In New Hampshire, since the start of the pandemic, there have been a total of 147,652 cases of COVID-19 diagnosed.
