

## **Bureau of Infectious Disease Control**

## New Hampshire COVID-19 Vaccination Allocation Plan Summary April 6, 2021

Phase 1	Phase 2	Phase 3
Phase 1a (~110,000)  • High-risk health workers  • First responders  • Residents and staff of long-term care and assisted living facilities  Phase 1b (~325,000)  • People ≥65 years old  • Medically vulnerable at significantly higher risk 2 or more conditions (see list)  • Family caregivers of those medically vulnerable persons, <16 years old, not eligible for vaccine  • Residents and staff of residential facilities for persons with intellectual and developmental disabilities  • Corrections officers and staff working in correctional facilities  • First responders and health workers not already vaccinated		Phase 3 (~650,000)  • Everyone else not already vaccinated
DECEMBER - MARCH  *** Estimated timeframe depends on vaccine do:	MARCH	MARCH AND BEYOND
*** Estimated timeframe depends on vaccine doses allocated to New Hampshire from the federal government and vaccine uptake***		
Equity is a crosscutting COVID-19 Community Vulnerability Index (CCVI).		

## **List of Underlying Medical Conditions (adapted from CDC):**

Phase 1b: Two or more conditions

- Cancer
- Chronic Kidney Disease
- COPD (Chronic Obstructive Pulmonary Disease) and other high-risk pulmonary disease
- Down Syndrome
- Heart Conditions, such as heart failure, coronary artery disease, or cardiomyopathies
- Immunocompromised states

- Obesity (body mass index of 30 kg/m or higher)
- Pregnancy
- Sickle cell disease
- Type 2 Diabetes Mellitus

Note: DPHS allows a health care provider to vaccinate any patient assessed to have significant risk for severe illness due to co-morbidities, even if not listed here. This list does not include every condition that might increase one's risk for developing severe illness from COVID-19, such as those for which evidence may be limited (e.g., rare conditions or combinations of conditions).
